Pursuant to Section 1773 of the Labor Code, the general prevailing wage rates in the county in which the work is to be done have been determined by the Director of the California Department of Industrial Relations. These wages are set forth in the General Prevailing Wage Rates for this project, available at the above address and available from the California Department of Industrial Relations' Internet web site at <http://www.dir.ca.gov>. Future effective general prevailing wage rates which have been predetermined and are on file with the California Department of Industrial Relations are referenced but not printed in the general prevailing wage rates.

The Federal minimum wage rates for this project as predetermined by the United States Secretary of Labor are set forth in the PROPOSAL and CONTRACT book. If there is a difference between the minimum wage rates predetermined by the Secretary of Labor and the prevailing wage rates determined by the Director of the California Department of Industrial Relations for similar classifications of labor, the Contractor and his subcontractors must pay not less than the higher wage. The County of Contra Costa will not accept lower State wage rates not specifically included in the Federal minimum wage determinations. Where Federal wage determinations do not contain the State wage rate determination otherwise available for use by the Contractor and

subcontractors, the Contractor and subcontractors must pay not less than the Federal minimum wage rate which most closely approximates the duties of the employees in question
